

Sysprep With Answer File

pdf free sysprep with answer file
manual pdf pdf file

Sysprep With Answer File Because this answer file is cached, when you run the Sysprep command, the system applies settings in the cached answer file. If you use the settings in a different answer file, you can specify a separate Unattend.xml file by using the Sysprep /unattend:<file_name> option. For more information, see Sysprep Command-Line Options. For more information about how to use an implicit answer-file search, see Windows Setup Automation Overview. Use Answer Files with Sysprep | Microsoft Docs Applies settings in an answer file to Windows during an unattended installation, where <answerfile> specifies the path and file name of

the answer file to use. For example:
Sysprep /audit /reboot
/unattend:F:\Unattend.xml. where F
is the drive letter of the portable
storage device on which the answer
file (Unattend.xml) is
located. Sysprep Command-Line
Options | Microsoft Docs The
answer file for Setup, typically
called Unattend.xml, is used along
with the System Preparation tool
(Sysprep) to prepare an installation
of Windows operating system for
duplication or imaging by capturing
a customized Windows master
image that we can reuse
throughout our organization. Edit
the Answer File – Unattend.xml -
Alex Computer Bubble Copy the
answer file into the image into the
\Windows\Panther folder, and name
it unattend.xml. The Panther folder

is one of the folders where Windows searches for an answer file. Create the folder if it doesn't exist. If there's an existing answer file, replace it or use Windows System Image Manager to edit/combine settings if necessary. Answer files (unattend.xml) | Microsoft Docs You can either use Sysprep by itself or Sysprep with an unattend answer file to generalize your image and make it ready for deployment. Generalize a Windows installation When you generalize a Windows image, Windows Setup processes settings in the generalize configuration pass. Sysprep (Generalize) a Windows installation | Microsoft Docs Windows System Image Manager is the tool used to create an unattended Windows Setup answer file. Windows AFG,

however, does not need the Windows Automated Installation Kit or Windows Assessment and Deployment Kit to be installed or downloaded. Windows Answer File Generator To do this, in your answer file, specify the PersistAllDeviceInstalls setting in the Microsoft-Windows-PnP Sysprep component. The default value is false. If you set the setting to true, the Plug and Play devices remain on the computer during the generalize configuration pass. Sysprep Process Overview | Microsoft Docs One of the missing options of sysprep in my opinion is to just generalize an installation. Alternatives are to use third-party utilities to reset the computers' SID, but since it's not an official solution, I will show you how to do it the 'official way' by using an

answer file. The only two options available in the sysprep utility are: Sysprep generalize Windows image without OOBESysprep Answer file Having prepared a template with sysprep, an answer file can be used to automate the initial configuration at the next boot. That file is searched in a series of predefined paths. In particular, one of which is " A:\unattend.xml " (Implicit Answer File Search Order No.

4). Provisioning MS Windows clones with sysprep and unattend ... Under the "Answer File" section, on the right side, select the amd64_Microsoft-Windows-International-Core-WinPE component. Under the "Settings" section, on the right side, define the keyboard,... How to create an unattended installation of Windows 10 ... Windows 10 Answer

File Generator for x86 and x64 processors Below are basic settings that can be configured during and after installation. What you type will automatically be updated in the "Output" area. Windows Answer File Generator Click on the Shell-Setup in the answer file section and fill in the "ProductKey" with the default KMS key found here <http://technet.microsoft.com/en-us/library/ff793406.aspx>. These product keys will not activate via Microsoft (retail), instead they are dummy keys for a Key Management Server to activate. How To Make An Unattend.xml Sysprep File - Bohack Could you provide a minimal unattend.xml file for use in Windows 7, which will be manually installed, updated and configured on one workstation, then SysPrep

will be run like this:.

```
C:\Windows\System32\sysprep>
```

```
sysprep /generalize /oobe
```

```
/unattend:unattend.xml /shutdown
```

and then C: partition cloned to multiple workstations (I use partimage from a Linux LiveUSB for this).
